

## FOCUSED CLAIMS REVIEW

Save on medical claims with an extra set of expert eyes.

# Add an extra step to medical claims review so you and your employees can spend less.

To enhance our claims review process, you can now add our Focused Claims Review program to catch overcharging through targeted reviews by our team of board-certified physicians.

**Extra step  
of review**

**Lower  
costs**

**More  
satisfaction**

## It starts with knowing where to look.

Most overpayment happens when claims are submitted with codes that don't match the services rendered, which means automated tools can miss the mistake. We automatically target claims through our exclusive process and algorithms. Claims with atypical billing patterns and high-costs are sent for further review.

## Then we use experts to take a more detailed look.

Our team of physicians are uniquely able to review claims and medical or clinical records by specialty for accurate coding and comparable billing practices.

### Our team of board-certified physicians specialize in:

- ✓ Anesthesiology
- ✓ Cardiology
- ✓ Chiropractic
- ✓ Dermatology
- ✓ ENT
- ✓ General Surgery
- ✓ Hand Surgery
- ✓ Neurological Surgery
- ✓ Neurology
- ✓ Orthopedic Surgery
- ✓ Pain Management
- ✓ Physiatry
- ✓ Plastic Surgery
- ✓ Podiatry
- ✓ Sports Medicine
- ✓ Urology

## Stop overpayment before it starts.

Adding an additional step of expert review means you won't be billed more than you should be and your employees will benefit from lower overall health care costs, without needing to investigate overpayment themselves.

## Contact your UnitedHealthcare representative to learn more.

You've carefully chosen medical benefits that will help keep your employees and your company healthy. Let us help you protect both with Focused Claims Review.
