Population Health and Well-Being; Integrated Solutions to Support Better Health

UnitedHealthcare offers a broad portfolio of integrated products and services for employers that help to build employee health ownership. Our solutions help employees to stay healthier by reducing risks, get healthier by supporting challenging and stressful times, and manage a condition by providing decision support and focused intervention for 100+ health conditions.

Message from Brian Luehne, VP, Consultant Relations

With a focus on Better Health, our enterprise missions support helping people live healthier lives and making the health care system work better for everyone. To that end, read on to find an update on the **opioid crisis** and our investment in multi-dimensional programs to help reduce the abuse of opioids, while providing patients with both temporary and chronic pain access to safe and effective treatments.

Also in this issue, learn about our **integrated solutions for employers that support population health and employee health ownership** - which help foster a healthier, and more productive workforce.

Finally, find out how our **social responsibility efforts and philanthropic initiatives**, including a collective 1.25 million employee volunteer hours, are making measurable differences in communities throughout the United States.

Products, Programs and Resources

- **Addressing the Opioid Epidemic**
UnitedHealthcare continues to invest resources into programs aimed at both the prevention and treatment of opioid addiction, taking into account the Centers for Disease Control and Prevention (CDC) recommendations. Our efforts are making a tangible impact on helping reduce the potential over-prescribing and overlap of opioid treatments.
- **Live and Work Well Launches Redesigned Member Website**
A newly redesigned Live and Work Well site recently launched for UnitedHealthcare and Optum members with Behavioral Health, Employee Assistance Program (EAP), and Worklife benefits. The updated site now has

Upcoming Webinar: May 23
Join us for our May webinar: **UnitedHealthcare's Network Solutions: ACO Collaboration**, scheduled for May 23 from 2:00 - 3:00 p.m. ET. We will provide an update on our evolving ACO relationships, collaborating with ACO physicians to share data and insights to support consistent, high-quality clinical outcomes and connecting members with tools and information to engage them in

a new look, improved navigation, and mobile-responsive design.
