The Opioid Crisis: 6 Ways Your Clients Can Fight Back

UnitedHealthcare - working with UnitedHealth Group and Optum - can help your clients with strategies across the care continuum designed to prevent and treat opioid use disorder (OUD), and improve opioid-related outcomes.

Real-Time Access to Patient-Specific Pharmacy Benefit Information with Script Connect

Script Connect is a new tool that provides prescription clarity up front by giving physicians access to patient-specific prescription drug list and cost information, Prior Authorization requirements, and lower-cost alternatives.

Message from Brian Luehne, VP, Consultant Relations

Thank you to everyone who joined us for our September webinar, *Tackling Substance Use and Opioid Addiction*. If you were unable to attend, please listen to the [webinar replay](#) to hear how UnitedHealth Group is responding in a variety of ways to the opioid crisis.

Opioid Use Disorder is a multifaceted problem without a one-size-fits all solution. In this issue, read about [6 ways your clients can fight back](#) and minimize the impact of this health emergency on their companies.

Also, learn about a technology enhancement called [Script Connect](#) that connects pharmacy data to the tools physicians' use every day. This new tool provides physicians access to patient-specific pharmacy benefit information at the point of prescribing - helping to improve affordability, adherence and health outcomes.

Products, Programs and Resources

- **New Network Relationship with Warby Parker Features Affordable, Fashionable Prescription Eyewear**
A new network relationship between Warby Parker and UnitedHealthcare enables millions of UnitedHealthcare Vision plan members to purchase custom eyewear for

Upcoming Webinar: Oct. 24

Join us **Tuesday, Oct. 24**, from **2-3 p.m. ET** for *The Frontier of Health Care Innovation* webinar. We will discuss evolving technologies

little or no out-of-pocket cost starting in 2018. This relationship marks the first time Warby Parker is accepting vision insurance.

■ **Employer eServices® Customer Reporting Tool Improvements Coming in November**

As a reminder, the Employer eServices (EeS) Customer Reporting (eCR) tool will introduce a technology upgrade in November to further improve data security for our users. These enhancements will also include an updated user experience with an additional left-side toolbar and increased user navigation between the "Interactive Reporting" and "Report Admin" screens.

and innovative solutions to better engage with consumers in this ever-changing environment. You may register [here](#).
